

FREE WEBINAR

13th March 2024, 6.30pm (AEDT) | 90 min (incl. 30 min Q&A)

A clinical framework for complex illness

In conversation with Daniel Baden and Tabitha McIntosh

As the landscape of clinical practice evolves with an increasing complexity in chronic health presentations, there is a growing and important role for natural health practitioners in our stressed healthcare systems.

Join BioMedica's co-founder Daniel Baden alongside accomplished clinician Tabitha McIntosh as they delve into their extensive experiences in managing complex and chronic cases, across a variety of clinical scenarios.

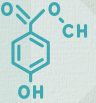

Register for this complimentary webinar and peer into the minds of some of the country's most experienced clinicians. Regardless of your level of expertise, this event aims to enrich your professional toolkit.

Engage in a live Q&A with Daniel and Tabitha

KEY LEARNING OUTCOMES:

- ◆ Increased confidence in your ability to support patients with complex and chronic health conditions utilising diet, lifestyle and naturopathic prescriptions.
- ◆ Acquire practical strategies and insights, empowering you to make a positive impact on your patients' lives.
- ◆ Learn Tabitha's clinical framework for breaking down complex cases into manageable steps, helping reduce overwhelm for patients and clinicians alike.
